

DEVELOPMENT AND PLANNING IN AFRICAN CITIES: EXPLORING THEORIES, POLICIES AND PRACTICES FROM SIERRA LEONE

WEEK 4 Vulnerability and infrastructure

STEP 4.13 Taking learning further (DISCUSSION)

This week we have learned about urban risk and urban health, and the challenges and opportunities this presents from the perspectives of the urban poor residing in informal settlements.

We then discussed some specific issues with infrastructure and how they are crucial for the functioning of cities. We hope you saw the connections between infrastructure and participatory planning, and also between infrastructure and governance.

We are now moving towards the course conclusion.
